Career Objective

- Motivated and detail-oriented fresher seeking an entry-level position to apply my skills and knowledge, contribute to impactful projects, and grow within a dynamic team.

Education

Xavier Institute Of Engineering

Bachelor of Engineering in Information Technology

Expected May 2025

GPA: 8.5 / 10.00

Projects

Digital Library | React, Spring-boot, Vercel, AWS Cloud

[Link](#) | [Github](#)

- Engineered the backend using Spring Boot to handle data processing and business logic
- Used Amazon S3 Bucket for storing the pdf.
- Pointed the server IP to a domain and secured it using cloudflare.

e-Commerce (CRUD API) | React, Spring-Boot, Postgres, AWS Cloud

[Link](#) | [Github](#)

- Platform enables adding, updating, deleting, searching, categorizing products, and facilitates seamless checkout with cart functionality.
- Successfully deployed the e-commerce application's frontend on Vercel and backend on AWS Cloud using Elastic Beanstalk and RDS, ensuring reliable performance and scalability.

Chat Web App | React, Spring-Boot, Websockets

[Github](#)

- Built a real-time chat app using WebSockets for instant, bidirectional communication
- Created a responsive user interface for a chat application using React, integrated with a Spring Boot backend.

Certifications — [LINK](#)

- **DSA in Java by Apna College** : Completed a course in Data Structures and Algorithms (DSA) using Java, focusing on problem-solving techniques and optimizing algorithmic efficiency.
- **Java Spring Framework with Spring Boot 3** : Build Java applications using the Spring Framework and Implemented projects using Spring Boot, with hands-on experience in deploying on AWS Cloud.
- **Docker For Java Developers** : Learned the basics of containerization and how to create, run and manage Docker images and containers.

Achievements

- **DSA** : Solved **200+ Coding problems** on different coding platforms.
- **Academic** : Excelled in MHT-CET 2021, securing a **TFWS** category seat (**top 5%**) in my college

Technical Skills

- **Languages**: Java, JavaScript, SQL
- **Technologies**: Postman, GitHub, Docker, AWS Cloud, Postgres
- **Coursework** : Data Structures and Algorithm, Computer Network, Operating System, DBMS

Volunteering

- **TedX** : Led alumni outreach for event ticket sales and sponsorships, boosting event funding.
- **Spandan** : Promoted Spandan (cultural fest) at other colleges through collaborative intra-team outreach efforts
