Education

Xavier Institute Of Engineering   Expected May 2025
Bachelor of Engineering in Information Technology   *GPA: 8.5 / 10.00*

Projects

Digital Library | *React, Spring-boot, Vercel, AWS Cloud*   *Link* | *Github*
- Developed a simple, user-friendly React UI for easy access to previous year question papers in PDF format.
- Built the backend using Spring Boot to manage data and business logic.
- Integrated AWS RDS Postgres database to ensure robust data management and high availability.

e-Commerce (CRUD API) | *React, Spring-Boot, Postgres, AWS Cloud*   *Link* | *Github*
- Created a well-designed UI implemented using React, enhancing usability and user interaction.
- Platform enables users to add, update, delete, search, categorize products, and facilitate seamless checkout by adding items to cart.
- Successfully deployed e-commerce application's frontend on Vercel and backend on AWS Cloud using Elastic Beanstalk and RDS(Database) ensuring reliable performance and scalability

Chat Web App | *React, Spring-Boot* , Websockets   *Github*
- Developed a real-time chat application using Spring Boot and React, leveraging WebSockets for instant, bidirectional communication between clients.
- Created a responsive user interface for a chat application using React, integrated with a Spring Boot backend.

Certifications — *LINK*

- **DSA in Java by Apna College** : Acquired comprehensive knowledge in Core Java , OOPs, Multithreading and Lambda expressions. Use of Collections for data structures and hence enhancing problem-solving skills.

- **Java Spring Framework with Spring Boot 3 :** Build Java applications using the Spring Framework and developed projects using Spring Boot, with hands-on experience in deploying on AWS Cloud.

- **Docker For Java Developers :** Learned the basics of containerization and how to create, run and manage Docker images and containers.

Achievements

- **DSA :** Solved **200+ Coding problems** on different coding platforms.

- **Academic :** Achieved strong academic performance in the MHT-CET 2021, qualifying for the **TFWS** category in my college (constitutes to **5% of total avaliable seats**).

Technical Skills

- **Languages:** Java, JavaScript, SQL

- **Technologies:** Postman, GitHub, Docker, AWS Cloud, Postgres

- **Framework :** React, Spring-Boot

- **Coursework :** Data Structures and Algorithm, Computer Network, Operating System, DBMS

Volunteering

- **TedX** : Spearheaded alumni outreach efforts for event ticket sales and secured sponsorships, fostering connection with the university community and generating additional event funding.

- **Spandan** : Promoted Spandan (cultural fest) at other colleges through collaborative intra-team outreach efforts
